International Action Camp in Germany
July 13-22, 2020

Remove the Old and Cancel the New U.S. Nuclear Bomb for Europe—the B61-12

Decades after the Cold War, 20 U.S. nuclear bombs remain at an air force base in Germany, and the Germans want them gone.

If you are interested in participating in International Week and would like more details, please contact Nukewatch.

Find additional information from the coordinators of the camp: www.buechel-atombombenfrei.de, or nukewatchinfo.org

STOP THE NEW NUCLEAR ARMS RACE

Strategizing for nuclear abolition, acting for the Ban Treaty in the shadow of the Y-12 Nuclear Weapons Complex in Oak Ridge, TN

SEVENTY-FIVE YEARS after Trinity, Hiroshima, and Nagasaki, nuclear weapons are still an existential threat, the Doomsday clock is set at 100 seconds til midnight, and nuclear weapons states are investing trillions of dollars to upgrade their weapons systems.

At the same time, peace movements around the world are gaining strength, bolstered by the compelling authority of the Treaty on the Prohibition of Nuclear Weapons.

STOP THE NEW NUCLEAR ARMS RACE will bring together activists from around the world to talk about how we can use the tools available to us in collaborations that are mutually supportive and effective.

SAVE ME A SPACE! Registration is now open! Space is limited. $320 covers registration, room and board for shared rooms; $310 for single rooms; $64 for local or nonresident participants. Children under 10, in parents’ room: $48; Childcare will be available during sessions.
